

Fish&Go™ was developed to contain pet fish and make their transportation safer and easier. Equipped with a special sliding lock and a carrying handle, Fish&Go™ can replace a glass aquarium for beginners, it can be used as a promotional item, or as a container for the fish when cleaning the aquarium.

Fish&Go™ Advantages:

Stand alone aquarium: safer than usual open tops, fish cannot jump out of the Fish&Go™.

Durability: Fish&Go™ is made of layered laminates, therefore having more resistance to impacts and punches and is much safer for the fish than regular plastic bags.

Multiple use: after use, dry the Fish&Go™, fold and re-use when needed.

Capacity: Fish&Go™ is available in sizes from 1.5 – 6.0 liters

Compact size: near zero volume when empty, will occupy a minimal storing space in the shop.

Use Fish&Go™ as a promotional package:

Any design can be printed on front and back of the Fish&Go™: your business name, a product name, or any background fish like.
